

## **Education Advocates' End of the School Year Checklist For Special Education Students**

Goal: to have programs and a plan in place for an easy fall transition

Check to ensure that the following, as appropriate, are in place:

- Signed, ongoing IEP
- Fall class placement decided and schedule defined
- Transition plan in place if moving to kindergarten, middle school, high school or post high school program
- Summer School or Extended School Year (ESY) program if needed. Discuss with IEP team; ESY must be reflected on IEP document.
- Possible ESY services to be continued during summer: speech/language, occupational therapy, special day class, resource, etc.
- Suggested summer activities for home: reading programs, math practice, writing activities, etc...
